At Starkey, we are committed to supporting you as your partners in delivering better hearing. This is an opportunity to learn about all of our products, technology and software features. The courses listed below will focus on our newest product lineup and are designed to help you bring even more patients the speed and precision of our Synergy platform.

Inspire 2018: Simple and Intuitive

Tuesday 4 September 2018

1:00 – 2:00 AEST

You need to feel confident when programming today's sophisticated hearing aids, and Inspire 2018.0, the latest version of our simple and intuitive programming software, allows for true personalization of each patient's specific needs. This course will provide a detailed overview of each screen of the Inspire 2018 software.
