**WEBINAR  
LEARNING SERIES**

**PROFESSIONALLY  
ENDORSED ACTIVITY**

**FEBRUARY**

**26  
TUESDAY**

**MARCH**

**19  
TUESDAY**

At Starkey, we are committed to supporting you as your partners in delivering better hearing. This is an opportunity to learn about our technology and help you support your patients through their hearing journey. The courses listed below will focus on understanding and assisting patients with Tinnitus, as well as getting up close and personal with the features in our Made for iPhone™ devices.

### **Tinnitus 101**

**Tuesday 26 February 2019**

**1:00 – 2:00 AEST**

Tinnitus affects millions of people around the world. Many of them seek professional help from hearing care professionals. This course will provide an overview of the most common tinnitus causes, how tinnitus affects patients, and available treatment options.

**REGISTER NOW**

**TUESDAY 26 FEBRUARY 2019**

*AudA: Endorsement Number: CPD1819 061 (1 CPD point)  
(Category: 1.2)*

*ACAud: Endorsement Number: 201902 (2 CEP points)*

*HAASA: Pending endorsement Approval*

### **Understanding Made for iPhone™ Features (Preparing for Livio™)**

**Tuesday 19 March 2019**

**1:00 – 2:00 AEST**

Made for iPhone hearing aids bring the power of the smart phone to your patients hearing. With this technology, hearing professionals are expected to have a working knowledge of the Apple ecosystem. This session will provide a basic introduction to Apple iOS, illustrate how to pair Starkey's Halo iQ devices to Apple products and discuss some basic connectivity troubleshooting. An overview of the TruLink mobile app will also be provided and we will introduce what is coming with Starkey's new Livio AI technology.
