

Notice of Intended Application (NoIA) Form for existing accredited programs

Audiology Australia (AudA) requires the university to submit a NoIA Form to indicate it seeks assessment for the existing accredited audiology program it offers. The university is also required to provide AudA with information regarding dates so an accreditation assessment site visit can be scheduled. The site visit is held in the last year of the existing accreditation period. The application submission will be due 3 months prior to the site visit.

Program Name:

Accreditation Assessment Year:

Please indicate any dates in May, June, July, August and September that do not suit for a site visit assessment. These reasons may include, for example, key staff on leave, majority of students on external placements, exam period etc.

We will endeavour to take this information into account when liaising with our assessors to find suitable dates for your visit.

Dates not suitable for site visit	Reason
<i>Example: Last week of May</i>	<i>Program coordinator on leave</i>

Please submit this form to uni.accreditation@audiology.asn.au
